CHITRANSHU SANKET

B. Tech (**Computer Science and Engineering [Data Science]**)
Email: 23cseds037.chitranshusanket@giet.edu
Phone: +91-7088153650 | LinkedIn: https://www.linkedin.com/in/chitranshu-sanket/

Career Objective

I'm a Computer Science student specializing in Data Science who enjoys solving problems through **data-driven thinking and AI**. I work with **Python and Machine Learning**, while exploring **Generative AI and building small-scale agentic AI projects using RAG systems**. As an active **chess player**, I naturally approach challenges with strategic thinking, pattern recognition, and analytical decision-making. I also enjoy **sharing knowledge and mentoring**, having conducted workshops and supported hackathons through the **Google Developer Group (GDG) and other technical communities**, while continuously learning and building practical AI solutions with real-world impact.

Educational Qualifications

Degree and Year	Institute Name	Board / University	% / CGPA
B. Tech (CSE) 2023-27	Gandhi Institute of Engineering and Technology University, **Gunupur, Odisha**	**GIET UNIVERSITY**	7.11
+2 Science in 2023	KINGCUP PUBLIC SCHOOL | **ITANAGAR, ARUNACHAL PRADESH**	**CBSE**	57%
10th in 2021	INSPIRATION PUBLIC SCHOOL | **HALDWANI, UTTRAKHAND**	**CBSE**	60%

Training / Certification

- OCI AI Foundation & Data Science (Oracle)
- R programming & Programming in Modern C++ (NPTEL)
- Introduction to Data Science (Cisco)
- Data Science & Analytics (HP Life)
- Machine Learning for Data Science (IBM)
- Generative AI Fundamentals (Databrick)
- RAG with MongoDB (MongoDB University)
- Project Management (Udemy)
- **Job Simulation**:
  1. Quantitative Research (JP Morgon) via Forage,
  2. Data Analytics & Visualization (Accenture) via Forage

Achievements and Extracurricular activities

- Secured mainly 1st and 2nd positions on University Chess tournaments.
- 90+ Questions on Leetcode.
- Secured 1st position on Eureka hosted by PDCS club about personality & communication
- Currently working on 3 Research Papers:
  - Political Analysis: researching and working to *improve **Exit Poll** decision through Twitter/X posts*, by building a LSTM model, and currently experimenting with RAG & AI
  - Rate of increase in type 2 Diabetes among youngster globally & developing countries
  - Ultrasound Nerve Segmentation using U-Net model and improvement for developing best CNN architecture to for segmentation.

- Secured positions on 2 hackathons & 1 Learnathon.
- Write data driven blogs and post on twitter & medium.
- NSS volunteer for Road Safety, Tree plantation, Blood donation camps and many other related programs

Skills

Programming Language	Python, R, C/C++, Java, HTML/CSS, JavaScript, SQL
Database	**RDBMS**: MySQL, PostgreSQL, **Non-RDBMS**: MongoDB, **VectorDB**: Chroma, FAISS
Libraries, Frameworks	Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, Xgboost, PyTorch, Tensorflow, Keras, Optuna, Flask, FastAPI, Pydantic, LangChain, LangGraph
Tools	Excel, Power BI, Bash, Shell, Git/GitHub, Docker **IDE's:** Jupyter notebook, VS code, PyCharm, Cursor, Antigravity, SQL workbench, PgAdmin

Soft Skills

Problem Solving | *Communication* | *Leadership* | *Time Management* | *Teamwork*

Position of Responsibility

- Data Science Lead in Google Developer Group on Campus
  - **Conducted hackathons**: Tech-fest (January-2026), Marvels of Machine Learning (December-2025)
  - Technically support other GDG events like Prompt to Prototype, Start-up Carnival (December-2025)
  - **Co-Lead recruitment** for the Club specifically for **AI/ML & Data Science** domain.
- Technical Head of Data Science Club (DSC):
  - **Workshop**: Mentored Students for SQL & Database Management System 101
  - Conducted events of Data Visualization & Data Science Quiz's
- Tech supporter and Mentor in the Student Association of Robotic Science (SARS)
  - **Workshop**: Mentored for the basic of IoT (2024)
  - **Co-Member recruitment** for the Club **for student who were interested & has a basic knowledge on IoT.**
- Technical Core member in AI/ML Club
  - **Workshop**: Mentored Students for fundamentals of Generative AI; Covered foundational topic like Machine Learning (type), Deep Learning (**ANN, CNN, RNN, LSTM *with a simple story*)**, and talked about RAG and its applications.
- An active Chess player and mentor in the University Chess Club
  - Secured mainly 1st and 2nd positions on University Chess tournaments.
  - Represented College in many Inter-college Chess tournaments ex:-(OUTR, NIT RKL, VSSUT, IGIT)
  - Mentored mates for chess competitions & Learning.

Internship Project Details

Name	Description **(Project Link:** https://github.com/Chitranshu0/Automate-post/**)**
AI/Tech Project Manager Intern at Bisy Hub	• Developed a **FastAPI** dashboard with Pydantic-based validation and user authentication on Render, automating social content workflows and saving 10+ hours weekly. • Built pipelines integrating 10+ data sources including Gemini, Hugging Face, Google Sheets, Supabase, PostgreSQL, and APIs to auto-generate captions and optimize media assets • Engineered API-driven workflows using n8n and Cloudinary, scaling content publishing from 0 to 100+ posts per week, enabling end-to-end automation.

Project Details

Name of the Project	CampusGPT – AI-Powered Academic Assistant
Languages & Frameworks	**Frontend**: HTML/CSS **Backend**: Python (FastAPI, Pydantic, typing, Langchain, LangGraph,**OCR**: Tesseract) **Database**: FAISS

Description	• Built a **RAG-based academic assistant** using FastAPI and FAISS to answer exam-related queries from lecture notes and past papers. • Developed **OCR pipeline with Tesseract** to extract structured knowledge from lecture slides. • Implemented **semantic retrieval and question prediction** using historical exam pattern analysis.

Name of the Project	**AI-Powered Medical Image Tumor Detection**
Languages & Frameworks	**Backend:** Python **Deep Learning:** CNN (ResNet / EfficientNet), Grad-CAM Explainability **Libraries:** Pandas, Numpy, Matplotlib, Scikit-learn, PyTorch, Tensorflow, Optuna
Description	Developed a **CNN-based tumor detection model** using PyTorch (ResNet/EfficientNet) for medical image classification, achieving **97% accuracy**, with regularization techniques like **Dropout and Early Stopping** to reduce overfitting. • Applied **Optuna for hyperparameter tuning**, optimizing learning rate, batch size, and model architecture to improve training performance and model generalization. • Implemented **Grad-CAM explainability** to visualize important regions in medical images, highlighting tumor areas and improving interpretability of deep learning predictions.

Personal Details

Date of Birth	30/06/2004
Gender	Male
Father's Name	Mr. Anjay Kumar Sinha
Present Address	CRPF GC, Nayapalli, Bhubaneswar, Odisha, Po: 751012
Permanent Address	Sindri, Dhanbad, Jharkhand, Po: 828128
Alternate phone number	+91 7017003218
Language Known	English, Hindi, Spanish(A2)
Interests & Hobbies	Chess, Reading, Travelling, Exploring, connecting with people, Technology, Duolingo, watching F1, playing Table tennis.

Place: Gunupur, Odisha
Date: Signature
